

## CABINET CARE

- Clean with a soft, lint free rag (t-shirt, dish towel, flannel, chamois, cheesecloth, microfiber, etc.) following wood grain. Use vinegar or soap and warm water, and immediately dry with a soft cloth.
- Periodically dust or vacuum.
- Do not use bleach, ammonia products, or anything abrasive. Avoid using Pledge (strips coating) or Murphy's Oil Soap (builds oil residue).
- Smoke, cooking vapor, body oil, and similar residues can be cleaned with a soft, damp cloth and a low abrasive adhesive.
- Do not use aggressive scrubs (steel wool, scouring pads, etc.)
- Keep oven cleaners from contacting finished surfaces
